

ATP – 60 – automatic machine for filling tubes , designed for packing of paste products in ready made laminated or plastic tubes . The machine can be equipped with additional appliances for aluminium tubes . The frequency control gives possibility for easy regulation of the productivity.

Technical data

Packing machine	ATP 60
1. Output	30 - 50 cycles/min
2. Batching volume	5 - 300 ml
3. Size of the tubes -diameter -length	20 - 50 mm 70 - 200 mm
4. Size of the cans/bins -diameter -length	to 100 mm to 180 mm
5. Possibility for corner orientation and automatic loading	Yes
6. Possibility for dosage of two-coloured product	Yes
7. Power supply	220/380/ V; 50,60 Hz
8. Power input	3 kW
9. Compressed air pressure	0,63 MPa
10. Maximal air consumption /on the output of compressor/	600 l/min
11. Overall dimensions -height -width -length	2000 mm 1800 mm 1200 mm
12. Weight	250 kg
13. Noise level	below 80 dB
14. Packaging material	- polypropylene-PP; - polyethylene-PE; - PP / AL / PE - AL
15. Tank with double bottom and mixer	30 /
16. Cooling water	10 °C 2l/m ²
